Subject: HDF 4.0 under PV-Wave?
Posted by art.croucher on Fri, 26 Apr 1996 07:00:00 GMT

It seems that PV-Wave only supports HDF 3.3, and the data I need to download is stored as HDF 4.0.

VNI tech support can't tell me when they are going to catch up, so -

Does anyone have the software to read HDF 4.0 with PV-Wave? Since we brought in a Wave programmer to do this job, I'd rather not switch to another product...

Thanks,
