Can any one tell me how the index arranged? For example, An array like this :

```
10  13  14
59  13  20
45   9  12
```

Is the index like this?

```
0  1  2
3  4  5
6  7  8
```

Thank you~

Actually , I tried to print the index and the result is like above but when I tried to large 2D array, it seems it is not right.....
