Can any one tell me how the index arranged? For example, An array
like this :

```
  10   13   14
  59   13   20
  45    9   12
```

Is the index like this?

```
  0   1   2
  3   4   5
  6   7   8
```

Thank you~
Actually , I tried to print the index and the result is like above but
when I tried to large 2D array, it seems it is not right..........
