> "animation_image_doc.pro"

IDL> print, !version
{ x86 Win32 Windows Microsoft Windows 6.3 Mar 23 2006 32 64}

works just fine (I see an animated brain or alike)

IDL> print, !version
{ x86 Win32 Windows Microsoft Windows 7.0 Oct 25 2007 32 64}

gives me a white window, a "waiting" cursor... if I try to close the window, IDL crashes.

Jean
