Hi,

For a couple of days, I haven't been able to browse [www.rsinc.com/idl](http://www.rsinc.com/idl) or [www.researchsystems.com](http://www.researchsystems.com) web-sites. [ittvis.com](http://ittvis.com) works fine. But they had different pages about IDL.

Do you encounter this problem when you try to access any of those two web-sites? My IDL-DE gives me a network connection error whenever I try to upgrade the workbench to 7.0.3 version.

Thanks.
