
Subject: Memory allocation problem using Call_external
Posted by [Oscar Chic](#) on Tue, 14 May 1996 07:00:00 GMT

I'm trying to run a C program using the Call_external interface.
The C program does some mallocs.

It seems IDL doesn't permit allocate memory to C program.
It's not possible to do this ?

I would greatly appreciate any help.

Thanks
