### Employment Opportunities

Modeled calcium currents in isolated heart muscle cells... Conducted simultaneous engineering processes... Forecasted weather in space by visualizing radio waves from the sun... Defined mountains and other land forms with fractal geometry.

### WHAT HAS YOUR SOFTWARE DONE TODAY?

We are Visual Numerics, the world's leading developer of hi-end graphical and numerical analysis tools, and one of the top 100 software companies in North America. Daily, over a half million users in 65 countries rely on our software to perform functions as those noted above plus thousands of others. If you are ready to make a difference in the world, VNI is looking for you.
