Sorry

I've found one blunder in the code I've posted in my previous article:

In article 14k@newsserver.rrzn.uni-hannover.de, knipp@ipi.uni-hannover.de (K. Knipp) writes:

...
> byteorder, header, /SSWAP & header = int_reverse(header)
...

has to be:

byteorder, header, /SSWAP ; header = int_reverse(header)

Karl
