Hi everyone,

My SAV file use 'call_function' command.

The 'function_name.pro' which called by 'call_function' command is to load image, but every experiment we will create new

'function_name.pro' for the new images, it is impossible to compile and enclose all 'function_name.pro' in SAV file in advance.

Is it possible for SAV file to call external function which doesn't enclose in SAV file?? Thank you very much!!

With best wishes,

Rongchang
