Folks:

What is the good IDL books to buy? I can ask our university library to buy IDL books some copies each. Is there anything else except these:

1. IDL Programming Techniques (Spiral-bound), David Fanning
2. Practical IDL Programming (Paperback)
3. An Introduction to Programming with IDL: Interactive Data Language (Paperback)
4. IDL Primer (Paperback)
5. Image analysis, classification change detection in remote sensing

Thanks for any recommendations on this.
