Maybe not helpful for your specific problem, but if you really need big arrays then just take advantage of a 64-bit OS and cheap RAM:

IDL> memtest

Memory block # 1: 2047 Mb (total: 2047 Mb)

Memory block # 2: 2047 Mb (total: 4094 Mb)

Memory block # 3: 2047 Mb (total: 2045 Mb)

Memory block # 4: 2047 Mb (total: 4092 Mb)

Memory block # 5: 2047 Mb (total: 2043 Mb)

Memory block # 6: 570 Mb (total: 2613 Mb)

WinXP x64, 8GB RAM, IDL 7.
