Subject: Re: Problems with array elements as parameter in c++ function used via call_external
Posted by   on Mon, 26 Jan 2009 08:01:34 GMT

Thanks for the tip, I will do that in the future. However the program,
at least run now (still not sure correctly though, but that's todays
problem) when I changed the variable type. Btw, does someone now if
there is a possibillity to debug the c-code when calling it from IDL
