Subject: Has anyone worked with ARF files and brought them into IDL successfully?

---

I'm looking to write a program in IDL to parse a header so I can read an ARF file into IDL. I'd also like to create an ENVI header somehow. I was told I could use the Data Viewer in ENVI to see the code, but I did it....wasn't sure exactly what I was supposed to look for.

I'm very new at this and need a layman's perspective. I'm sort of being thrown into programming at my job and I'm not a programmer at all. Whatever help anyone could give would be greatly appreciated.

Thanks,

D.
