If experience is any guide, the answer will be "no" and
"hell no". There will be plenty of people to offer
helpful criticism after you are finished, though. :-)

It's a good idea. And if it is well implemented,
and offered free to the community, it will be widely
used. This will bring you fame, if not riches. Perhaps
that is enough for you. If so, I say go for it!

Cheers,

David
