Hi

I love to use mercurial together with python and eclipse. I just want to use it for all my idl code too.

[http://en.wikipedia.org/wiki/Mercurial_\(software\)](http://en.wikipedia.org/wiki/Mercurial_(software))

It seems it can be integrated nicely in the current idl 7.0x workbench

http://bitbucket.org/mercurialeclipse/main/wiki/Installation_and_Configuration

Are there any problems known?

cheers

Reimar
