Hi,

Idl workbench (idlde) uses the 32 libraries and not 64. To install them type: sudo apt-get install ia32-libs

This should allow to run idlde. Then you need to install the patch to avoid any interference with firefox: <http://www.ittvis.com/services/techtip.asp?ttid=4395>

Then to install the license use this tech-tip:

<http://www.ittvis.com/services/techtip.asp?ttid=4248>

Tell me if it works.

Giorgio
