Hi,

I'm trying to write some code for spline based ROIs, but the splines seem to be very unstable and "explode" when the control points are ordered haphazardly.

Does anyone have code for drawing smooth ROIs.

Here is a picture of what it should look like

<http://barnett.id.au/idl/spline.tiff>

Source code at:

http://nma.cvs.sourceforge.net/viewvc/nma/nma/controls/nmasplinecontrol__define.pro?revision=1.1&view=markup

Thanks

Robbie
