Hi All,

I'm suffering from the following problem:

<http://www.itvis.com/services/techtip.asp?ttid=4395#patch>
and our IT guru hasn't yet heard back from ITTVIS about the patch.

So, in the interim I was wondering if there is a URL containing the IDL Online Help that is, well, online? And searchable.

A cursory search of the ITTVIS website only yielded the (quite largish) PDF files of the various references/guides.

cheers,

paulv
