Folks,

If you have recently started to use IDL 7.1, this might be a good time for you to do a Coyote Library update. A number of important programs have been updated to take advantage of 24-bit color PostScript support in this version of IDL.

You can find the entire library here:

<http://www.dfanning.com/programs/coyoteprograms.zip>

Or, you can download individual files:

<http://www.dfanning.com/programs/decomposedcolor.pro>
<http://www.dfanning.com/programs/tvscale.pro>
<http://www.dfanning.com/programs/tvimage.pro>
<http://www.dfanning.com/programs/psconfig.pro>
http://www.dfanning.com/programs/fsc_psconfig__define.pro
http://www.dfanning.com/programs/fsc_color.pro

Cheers,

David
