Hi,

Maybe start with:

```
x=[49,49,51,51,51,53,53,53,55,55,57,57]  
y=[31,33,29,31,33,27,29,31,27,29,27,29]  
z=[1.67,1.56,1.6,1.74,1.65,1.43,1.72,1.64,1.59,1.67,1.61,1.5 6]
```

contour,z,x,y,/irr

and then read:

<http://www.dfanning.com/documents/tips.html#CONTOURPLOTTIPS>

Thanks,

Allan
