Free (time-limited trial) tool for using Python in your IDL code!

Right now, you can get a free, trial version of Slither™, the IDL to Python bridge, to “try before you buy.”

This is a full Beta copy of the latest version of Slither, which expires 31 July. It is compatible with 32 and 64-bit operating systems and Python 2.5.x and 2.6.x

If you are interested in taking Slither for a test drive, contact Slither@jacquette.com

More information about Slither can be found at <http://www.jacquette.com/index.php/products/slither.html>
