Yes, sir, I'll get right on it! Are you, uh,
current with your service contract?

Cheers,

David

P.S. It may not be obvious with all the warm fuzzies
we tend to send IDL's way, but we don't actually
work for ITTVIS. In fact, they would probably
rather not have anything to do with us. Please
don't mention our names when you contact them to
complain about this. :-)
