Dear Friend,

We have started another listserv at Visual Numerics to inform people of changes to the VNI Website. I am forwarding the first bulletin to this newsgroup, but if you want to subscribe to the list send a message to:

Message to:

`listproc@boulder.vni.com`

with the subject blank, and the first line of the message

`subscribe webannounce <First Name> <Last Name>`

Many of you have already signed up for information from our website, and we have added you to the list already. If you recieved a copy of this newsletter already today, you are subscribed to the list.

Thank you for your interest.

Rick Mangi

Webmaster, Visual Numerics, Inc.

Visual Numerics Quarterly Web Site News Vol. 1 No. 1

Welcome to the first edition of the Visual Numerics Web Site News. In today's rapidly changing environment the importance of the information superhighway is permeating almost every aspect of our lives. This is particularly true in the area of information access. Visual Numerics is investing significantly in the expansion of its worldwide Web site during 1996. These expansions include expanded product information and support services as well as the availability to download demonstrations and product software. Take a moment to check out the exciting changes that have taken place over the past few months on our home page (www.vni.com)

New and Interesting

Developers Corner:

Visit our garage. The Developer's Corner features projects in progress, many focusing on Internet technologies such as Java, VRML, CGI, and HTML. There are links to other sites working with Visual Numerics' products. The Developer's Corner now features a message based bulletin board on the website. Come on in for a visit and talk with Java

Jim at www.vni.com/garage/index.html.

ObjectSuite:

With the release of the C++ Charting Module, the ObjectSuite pages have been revised and more information added. Check out the exciting new features available in the C++ Charting Module at www.vni.com/objectsuite/objectsuite.html.

Application Studies:

Browse through our library of application studies at www.vni.com/AppStudy/index.html to find out what other people are doing with Visual Numerics products. Many of the studies are available now, with more coming every week.

User Library of VDA Tools:

If you are a PV-WAVE user, you'll want to download the new VDA Tools in the user library. Find the new tools at www.vni.com/pvwave.dir/tech/vda_tools.html.

Electronic Distribution of Products:

The new PV-WAVE 6.03 release is available for download. Download from the Web site or go directly to our anonymous ftp site. For more information, go to www.vni.com/pvwave.dir/wave603.html

Training Class and Discovery Seminar schedule and electronic registrations:

Interested in a PV-WAVE training class? For a calendar of available training classes, take a look at www.vni.com/events/index.html. How about finding out more about Visual Data Analysis or C++? Our Discovery Seminars are coming to a city near you. For a list of dates and cities, visit www.vni.com/events/index.html. You can also register for a training class or a seminar directly from the Web site.

Coming Soon

New Web Site:

Work has already begun on a new and improved Web site. We are interested in your suggestions. If you would like to offer your input, send an email to webmaster@boulder.vni.com

Listservers for all product lines:

Many PV-WAVE customers are already using our listserver to talk with other PV-WAVE users to get answers to technical questions. For more information on how to subscribe, visit www.vni.com/pvwave.dir/tech/ml.html. Listservers for the IMSL libraries and ObjectSuite are coming soon.

Searchable tips data base and electronic technical support for all product lines:

The PV-WAVE Technical Support area of our Web site provides valuable information on installing and using PV-WAVE. If you haven't tried our electronic technical support, visit www.vni.com/pvwave.dir/PVW.CustSupt.html. In the coming months, these services will be expanded to include the entire Visual Numerics product line.

Electronic Newsletter:

The next edition of New Directions, the Visual Numerics Corporate Newsletter, will be available from the Web site. You will be able to read the newsletter directly or download a file for printing.

Feel free to send any comments or questions to
