Dear Wayne,

thank you again for your response. I got for Windows Vista x64 with  
2x2.5 GHz Intel DualCore and 8 GB Ram within:

IDL 6.4 x64

- maxmin: 0.25 s

- total(/integer): 0.19 s

- total : 0.13 s

So, maybe it doesnt matter, but the total method seeme to beat each  
other approach....(

Any further ideas?

Best regards

CR
