Hello,

I would like to add a point (with Y error bars) on the top of each bar in a plot like this one :

[http://nico.aunai.free.fr/thermal\\_fluxes.png](http://nico.aunai.free.fr/thermal_fluxes.png)

Is it possible ?

My problem is that I can't figure out the x coordinate of the center of the bars...

Thanks

Nico
