Hi all,

We are currently hiring for a Software Engineer on the IDL team. I have included the job posting below. For more information please visit <http://www.ittvis.com/careers/moreinfo.asp?jid=379>

Thanks!

-Chris Torrence
IDL Software Development Manager
ITTVIS

Software Engineer

Join the IDL team. We are looking for an experienced software engineer to design, implement and maintain features for IDL. You will work as part of a small, agile team charged with developing new features and maintaining existing features that directly support customer needs. Responsibilities will include the ongoing enhancement and maintenance of our cutting-edge commercial data analysis and visualization tools. You must be self-motivated, show initiative and deliver results. Minimal travel is required.

Required Minimum Skills and Qualifications

- * Well-rounded software engineering background with experience in the design and implementation of complex software solutions in a variety of computing environments
 - * Excellent development skills with proven proficiency in C/C++ and Java. IDL proficiency is desired but is not a requirement.
 - * Proven experience with modern software engineering processes and methodologies
 - * 2+ years of software design and development experience
 - * Strong written and oral communication skills with the ability to produce results in a team environment
- BA/BS or advance degree in Computer Science or other technical discipline

How to Apply

To apply for any of these positions, send your resume and a cover letter to:

Human Resources
ITT Visual Information Solutions

4990 Pearl East Circle
Boulder, CO 80301
U.S.A.
Tel: 303-786-9900
Fax: 303-786-9909
Email: jobs@ittvis.com

If you send your resume as an email attachment, please be sure to properly encode the file so that it won't get corrupted during transfer.
