```

This is what I tried....

```
-----
IDL Version 6.2 (IRIX mipseb m64). (c) 2005, Research Systems, Inc.
Installation number: 94891-43.
Licensed for use by: University of Maryland
```

```
IDL> .r shapeinfo.pro
```

```
void = Error_Message()
      ^
```

```
% Syntax error.
```

```
At: /user1/dvila/CoSch/shapeinfo.pro, Line 101
% 1 Compilation error(s) in module SHAPEINFO_EVENTS.
% Compiled module: SHAPEINFO_CLEANUP.
```

```
void = Error_Message()
      ^
```

```
% Syntax error.
```

```
At: /user1/dvila/CoSch/shapeinfo.pro, Line 217
% 1 Compilation error(s) in module SHAPEINFO.
```

I tried to browse the file using ENVI and I suppose that the attribute and Statename are the following

DrawStates, 'laplata.shp', Attribute_Name='ID0', Statename='line1'

but this is what happen:

```
-----  
IDL> .r drawstates.pro  
  
    ok = Error_Message(/Traceback)  
           ^  
% Syntax error.  
  At: /user1/dvila/CoSch/drawstates.pro, Line 121  
% 1 Compilation error(s) in module DRAWSTATES_DRAWENTITY.  
  
    ok = Error_Message(/Traceback)  
           ^  
% Syntax error.  
  At: /user1/dvila/CoSch/drawstates.pro, Line 195  
% 1 Compilation error(s) in module DRAWSTATES.  
-----
```

Thank you for your help!

Daniel
