
Subject: make_rt for 32 and 64 bit applications?

Dear all.

I have 32-bit-IDL running under 32-bit-Vista.

From the description of make_rt it did not become quite clear to me whether or not it is possible to compile a 64-bit app on my system just by using the /Win64 keyword? Or do I need the 64-bit IDL for this?

Thanks,
Michael
