Folks,

As if we need more evidence of what a wild, wacky place the Universe is, I have this story today.

Yesterday, I posted a review of Matthew Polly's book American Shaolin on my web page. (Five stars, by the way.)

This morning I learn that Matt has an IDL connection: he is married to an IDL user. And more, Coyote has managed to get himself invited to dinner with the author the next time he is in New York City!

If you haven't already done so, you may want to get connected to the Synchronistic Universe by subscribing to Coyote's Guide to IDL Programming and other web pages and blogs via Google Reader, or other like-minded services.

It is a good way to find out what is going on in the world first thing in the morning. :-)

Cheers,

David
