This works in Firefox, and might work in other browsers too.

Go to:

http://groups.google.com/groups/search?as_q=where&as_epq=&as_oq=&as_eq=&num=10&lr=&as_sitesearch=&as_qdr=&as_mind=1&as_minm=1&as_miny=2009&as_maxd=1&as_maxm=1&as_maxy=2009&as_ugroup=comp.lang.idl-pvwave&as_usubject=&as_uauthors=&safe=off
which is searching for where in the group.

Now bookmark this page. Then open the bookmarks organizer and find your bookmark. In the address replace 'where' with '%s' with no quotes. Add a keyword (not a tag, that's different. You may have to expand a little arrow in the bookmark manager window to see the keyword field.) I used the keyword 'gg'.

Now in the address bar of Firefox I can type 'gg histogram' and it returns a search for histogram in the whole group, sorted by relevance.

If it does not make sense, have a look at:
