Hi,

I have a problem. I want to display an image and i do this:

```
imag = make_array(ns, nl) ; with ns=21815 and nl=10636
```

```
imag = envi_get_data(fid=fid, dims=dims, pos=pos)
```

but i become an error message "" Unable to allocate memory: to make array."

can somebody help me?

thanks in advance

Woods
