I believe this error is caused by the lack of C runtime libraries on the machine. You can get the runtime redistributable libraries at <http://www.microsoft.com/DOWNLOADS/details.aspx?familyid=9B2DA534-3E03-4391-8A4D-074B9F2BC1BF&displaylang=en>

I will report here if this solves my problem. I started this thread, might as well finish it.
