Hi,

I am a little late to catch this as I have been away from IDL for some
months. I just read over Jeremy Bailin's tutorial on neato tricks
with Value_Locate. (see http://www.dfanning.com/code_tips/valuelocate.html)
I had been using Value_Locate a lot, but now I think I'll think I'll
be using it a whole bunch more. Thank you, Jeremy!

Cheers,
Ben
