Hi,

This is a shameless plug for Astromed 2009 in Sydney. Astromed is a workshop focusing on imaging, instrumentation and data processing in Astronomy and Medicine. I suspect that some people from ITTVIS will be attending. I look forward to meeting any fellow IDL users for group therapy on data processing woes.

More information is available at:

<http://www.physics.usyd.edu.au/astromed09/>

Cheers,

Robbie
