Subject: Re: extracting subarray (*,*,index) gives (1,1,index). WHY ??? Posted by Imudge on Fri, 23 Aug 1996 07:00:00 GMT View Forum Message <> Reply to Message
In article <3219CC9A.53D7@neurologie.uni-duesseldorf.de>, knorr@neurologie.uni-duesseldorf.de says > i want to extract a line from a 3D image by doing > line = image(*,*,z) > i expect line to be a 1d vector with dimension dim(z) > or to be more IDLish, i expect the following to hold > size(line) == (z) > but instead I get > size(line) == (1,1,z)
Try line = reform(image(*,*,z)) this should work.
Leith.
The victors called the revolution a triumph of liberty; but now and then liberty, in the slogans of the strong, means freedom from restraint in the exploitation of the weak.
