Hi folks,

I've 2 IDLDE questions and maybe you can help me...

1) Normally I use ; TODO blabla.... to add attention marks on my programs but, there is another way to add marks ?

2) Sometimes the IDLDE changes the keyword layout automatically.

Normally, I use the USA keyword configuration and sometimes (without knowing what I do) IDLDE changes the keyword configuration to FRENCH or SPANISH.. MmmMM Why ? Is there a shortcut to change the keyword layout?

I think that's all for now...

Thanks,

nata
