Hi,
Thanks again for your help,
I'm just wondering how I can save struct to data.txt after executing
the command under IDL:
IDL> read_v2_1, 'gpcp_v2.1_psg.1979', struct
I want to save struct to data.txt to be oppened with text editor under
windows (so data.txt wil be located under a spedcific folder say: c:
\cgcp\data.txt).
Thanks again
Sam.
