## Subject: chunk indexing like Posted by Wout De Nolf on Fri, 08 Jan 2010 13:08:45 GMT View Forum Message <> Reply to Message

Hi IDLers,

I know how to get from [2,3,1,0,5] to [0,0,1,1,1,2,4,4,4,4] (i.e. chunk indexing) but how do I get from [2,3,1,0,5] to [0,1,0,1,2,0,0,1,2,3,4] without loops that is.

I have been juggling with histogram and total(.../cumulative) but I can figure this one out.

Any ideas?
