Subject: XYOUTS: Variable is undefined: Conversion destination variable.
Posted by Johannes Korn on Mon, 25 Jan 2010 16:44:03 GMT

Hi,

can someone explain the meaning of the above stated error?

It is produced by the following line of code:

```
; Plot location of Cluj-Napoca International Airport
if (date eq '25052009') then XYOUTS, [23.67,46.8], 'C', COLOR=253
```

Regards,

Johannes
