Please make plans to join your fellow IDL and ENVI users at VISualize 2010 in Washington, DC on May 19-20. VISualize is designed to bring together IDL and ENVI users to provide opportunities for networking, sharing ideas, and working on strategies that advance our scientific data analysis and visualization community.

Abstracts are now being accepted for VISualize 2010. If you have an interesting application, want to report success in furthering your research, or want to demonstrate a creative approach using ENVI or IDL, VISualize 2010 is the perfect opportunity to share it with your peers or to get feedback from other users in the community.

Suggestions for topic areas include, but are certainly not limited to:

- Atmospheric & Climate Applications
- Data Analysis & Visualization
- Astronomy, Astrophysics & Planetary Physics
- Remote Sensing, GIS and Geospatial Applications
- Medical/Biologic Applications

Abstract submissions should be sent in as soon as possible. It should include the title of your presentation, your name and contact information, the organization you are representing, a short informal description of your proposed presentation, and a short biography. Please submit your abstract via email to hcline@ittvis.com.

When: May 19-20, 2010 8:00 AM - 4:30 PM

Where: World Wildlife Fund, 1250 24th St NW #6, Washington, DC 20037
USA
