## Subject: ERASING a line

Posted by Mario Noyon on Tue, 08 Oct 1996 07:00:00 GMT

I would like to draw a vertical line on a drawing widget and erase it
afterwards. Just like idl does it with the BOX_CURSOR.
I watched this routine to see how they did, but my pocedure refuses to
redraw the line erased.

Does someone has an idea??

Thanks.
