Not at all sure. :-(

The most common sort of error is either (1) Not having
all the programs in the Coyote Library (sounds like
this is not your problem) or (2) Not having an updated
Coyote Library:

  http://www.dfanning.com/code_tips/installcoyote.html

If you are sure about those two issues, then let me
know what version of IDL you are running, and on what
computer.

Cheers,

David
