Resource Name Description

idl.colors The number of colors used by IDL.

idl.gr_depth The depth, in bits, of the visual used by IDL.

idl.retain The default setting for the retain parameter:
0=none, 1= by server, 2=by IDL.

idl.gr_visual The type of visual: StaticGray, GrayScale, StaticColor,
PseudoColor, TrueColor, or DirectColor.

idl.olh_text_width The width for the online help window.

idl.olh_text_height The height for the online help window.
