3.3alpha2 now available (in source form as well in a .sav now) from the
downloads page:

  http://idldoc.idldev.com/wiki/Downloads

Note that the .sav file will only work in IDL 8.0, but the source
version should work back to IDL 6.0. I will build the beta release .sav
files with an older version of IDL so that it will be compatible with
IDL 6.0.
