Hi Guys,

I'm trying to open some *.img files from
http://edc2.usgs.gov/glcc/glcc_version1.php#NorthAmerica
The problem I have when I try to open those files is that ENVI asks me
for a hdr file and I don't know where I can find it.
Without the header file, ENVI asks me for the number of bands, lines,
etc. and I don't know this information.

Any kind of help is appreciated,
nata
