put the slash/backslash in the path, not in the filename...

```
case StrLowerCase(!Version.os_family) of  
  'unix':  bpath='/usr/local/itt/idl80/resource/bitmaps/'  
  'windows': bpath='C:\Program Files\ITT\IDL\IDL80\resource\bitmaps\'  
endcase  
  
b=widget_base(bitmap=bpath+'hand.bmp', xsize=300)
```

Jean
