Yes, the CLIP was useless, but even simplifying the command to

```
CONTOUR,tablep,x,y,$  
xstyle=5,ystyle=5,/FOLLOW,/CELL_FILL, TRIANGULATION=tri, $  
C_COLOR=colorind(0:c_numlev-2+addmini+addmaxi), $  
LEVELS=lev,/br/>  
XRANGE=rangex,YRANGE=rangey, $  
POSITION=[blx*winx/mwinx,bly*winy/mwiny,trx*winx/  
mwinx,try*winy/mwiny]
```

I do get the same error...
