Folks,

I've noticed two interesting trends lately. People complaining that their figures are smarter than than brains, and more typos in my own posts than I think reasonable. (Even extending to web page articles.) It seems more is involved here than would at first appear.

If you need a diversion, here is an interesting article by Ed Yong on how people actually spot typing mistakes.

<http://blogs.discovermagazine.com/notrocketscience/2010/10/28/two-ways-of-spotting-mistakes-while-typing/>

Cheers,

David
