I have this same problem. I've gone so far as to complain to RSI about
it, and the response I got was "Well...but people are used to the status
quo and would complain about the change." (More or less anyway.) I
don't know who *expects* ^D to kick them out when they're in the middle
of a command line...

I'm all for a revolution. Viva la' ^D==delete! :-)

Regards,

Brian
