
Subject: plot of implicit function

Hello, I have an analitical 3D streamfunction, and I want to plot it.
I looked here http://www.dfanning.com/tips/particle_3d.html and it's
exactly what I want, but I have an a implicit definition of
coordinates:

$f(R, \phi, z) = t$

$g(R, \phi, z) = t$

$h(R, \phi, z) = t$

Anyone have an idea for implicit function plot?
